

**Eco Council Meeting**

**17.11.22**

**Present:**

Beech: James M and Darcie

Holly: Gabriella and Alice

Hazel: Jasmine and George

Willow: Lily and Riley

Sycamore: Jacob and Clare

Oak: Poppy and Katie

What we have achieved since the last meeting:

- Poppy and Katie have investigated water butts and animal houses and shared their work with the rest of the group.

Items arising:

- The pond has turned purple because of a skipping rope that had been thrown in
- Riley and Lily are going to make two signs to put up to stop people throwing things in the pond.
- The hens need to be fed every day – please check the rota to see when it is your turn to feed the hens.
- When you collect the eggs please make sure that you put the silver catch back on to keep the hens shed dry.
- Mrs Poole to ask Lisa from Forest School to make bug houses for the pond area.
- Mrs Poole to ask FofE for £20 to buy two bird houses and two bug houses.
- Mrs Poole to speak to Mrs FitzGerald about how to sort the pond area out.

George to explain in the next assembly about not throwing things into the pond.

In the future we can hold an assembly to show our work on the pond area.
