

## Science - Light

- Recognise that they need light in order to see things and that dark is the absence of light
- Notice that light is reflected from surfaces
- Recognise that light from the sun can be dangerous and that there are ways to protect their eyes
- Recognise that shadows are formed when the light from a light source is blocked by an opaque object
- Find patterns in the way that the size of shadows changes.

Work Scientifically

## Geography

Locational Knowledge, Place knowledge, human and physical geography

Where is the continent of North America and what countries and capital cities does it contain? (latitude, longitude, equator, hemispheres and tropics)

What is the climate like in different regions of North America?
