

**Eco Council Meeting**

**19.4.23**

**Present:**

Beech: James M and Darcie

Holly: Gabriella and Alice

Hazel: Jasmine and George

Willow: Lily and Riley

Sycamore: Jacob and Clare

Oak: Poppy and Katie

What we have achieved since the last meeting:

- Poppy and Katie have investigated water butts and animal houses and shared their work with the rest of the group.

Items arising:

- The pond has turned purple because of a skipping rope that had been thrown in
- Riley and Lily are going to make two signs to put up to stop people throwing things in the pond. – **The signs are up and in place**
- The hens need to be fed every day – please check the rota to see when it is your turn to feed the hens. - **Yes**
- When you collect the eggs please make sure that you put the silver catch back on to keep the hens shed dry. – **Hens need to be cleaned out soon – (Next Wednesday 26<sup>th</sup> April)**
- Mrs Poole to ask Lisa from Forest School to make bug houses for the pond area = **Done**
- Mrs Poole to ask FofE for £20 to buy two bird houses and two bug houses = **Done – we can have more than that to buy some water butts too.**
- Mrs Poole to speak to Mrs FitzGerald about how to sort the pond area out.- **Buy some weed matting and then lay a path to the wooden decked area, covering the matting with bark chips – Urgent to do in the next two weeks before the nettles grow too big.**
- **Clear and replant the garden area at the front of the school.**

In the future we can hold an assembly to show our work in the pond area
